CREMA MARFIL

DREAM
DOERS[®]

THE BEAUTY OF CREMA MARFIL

Crema Marfil embody the perfect combination of luxury and practicality. Made with a silky-smooth glazed finish, these tiles offer a soft, sophisticated feel that elevates any space. Crafted with care, they are not only aesthetically stunning but also highly functional, with excellent stain resistance to maintain their beauty over time.

Featuring delicate engraving details, Crema Marfil tiles create a subtle texture that adds depth and interest to any room. Available in two versatile shades—Light Beige and Light Grey—these tiles suit a wide range of design preferences, whether you're looking to achieve a modern, minimalist look or a more traditional style.

Perfect for kitchens, bathrooms, or living areas, Crema Marfil tiles offer the ideal solution for those seeking durability, elegance, and a touch of luxury. Transform your space with Crema Marfil—where timeless beauty meets exceptional performance.

STONARA
THE PERFECT BLEND OF STONE & MARBLE

Discover Stonara, where the rugged allure of slate and the refined veining of marble converge to create stunning designs. Elevate any space with Stonara's diverse collection, crafted with an unwavering commitment to quality. Stonara resonates with discerning consumers seeking authenticity and sophistication, making it the perfect choice for those who appreciate timeless elegance.

SPECIAL FEATURE

This porcelain tile series features a P2 matte surface for a sleek, slip-resistant finish that suits any space.

Enhanced with "easy cleaning" technology, these tiles resist dirt and stains, ensuring lasting beauty with minimal upkeep.

Each different tiles series is produced to meet different performance requirements. For specific product technical performance, please request from DREAMDOERS sales team or their agent or distributor.

Colour Variations:
Since the colour reproduction in this printed piece will vary from the actual tile colours, final selection should be made from tile samples.
Colour, shade and glaze variations may exist due to the inherent characteristics of porcelain tile.
